

INDICES TO THE LETTERS OF ISIDORE.

Index A gives the series in G with the equivalents in Migne's *Patr. Gr.* vol. 78.

Index B gives the series in Migne with the equivalents in *G*.

Index C gives the list of the letters in Laud Gr. 42. In A the order of *S* is given in footnotes, where it differs from that of *G*.

¹ *G* omits Migne *P. G.* iii 229. Therefore to obtain the numeration of *S* the number given by *G* must be increased by one until letter *G* 1173 is reached, when *G* omits Migne *P. G.* iii 374, and the numbers must be increased by two.

² *G* passes over 1319 in numeration, but as it is probable that this really represents the omission of a letter the numeration still requires to be increased by two in order to obtain that of *S*. In writing *αϑη'* the scribe has apparently hesitated, for the *η'* is dotted to call attention to a *θ* written in the margin.

¹ G 1339, 1340, 1341 = S 1341, 1342, 1343 are not contained in Migne, but are given in Dr N. Capo's article in the *Studi Italiani di filologia classica* ix (Florence, 1901).

² G passes over 1377 in numeration, so that only one need be added from this point to give the numeration of S. The last letter in the numeral *aros* seems to be written *in rasura*.

¹ *G* gives 1783 as the number of two consecutive letters. To obtain the numeration of *S* it is therefore again necessary to add two to the numbers of *G*. This holds good to the end of the MS. The numeration of *S* may thus be conveniently summarized as follows:—

In Epp.	1-1028 no. in <i>S</i>	= no. in <i>G</i>
"	1030-1173	" <i>S</i> = " <i>G</i> + 1
"	1175-1378	" <i>S</i> = " <i>G</i> + 2
"	1379-1784	" <i>S</i> = " <i>G</i> + 1
"	1786-2000	" <i>S</i> = " <i>G</i> + 2

and,

1029 *S* is not given in *G*.

1174 *S* " " "

1785 *S* is the second of the two marked 1783 in *G*.

NOTES FROM COSMAS INDICOPLEUSTES.

IN the *Χριστιανική Τοπογραφία* of Cosmas Indicopleustes are preserved almost all of the surviving Greek fragments of the Festal Letters of Athanasius. On collating the Laurentian MS of Cosmas I find another,
